THE KING'S SHADOW

ELENA HORMIGA

+ 3 • 280 x 240 mm • Hardback • 40 pages

A beautiful fable about the value of immaterial things

Are all kings capricious? The one in this story is. So much so that he has ordered an elephant to be caught, all the butterflies in the kingdom to be hunted down, and musical instruments to be requisitioned. And now he has a new craving: to bring the precious shade of a thousand-year-old tree to his treasure tower... will he succeed?

In this beautiful tale, Elena Hormiga reflects on the futility of greed to remind us that often the value of things lies precisely in the immaterial.

- Winner of the XLII edition of the Destino Apel-les Mestres award
- A simple text but with an endearing story that is full of messages with values.
- Elena Hormiga's delicate illustrations will captivate readers, young and old alike.

An illustrated album exploring new masculinities*

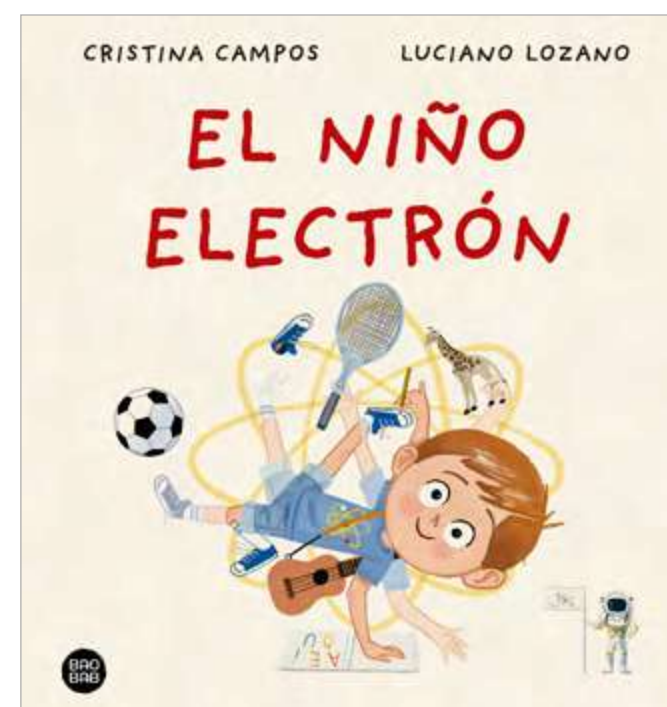

Loud laughter shakes the toy store display, almost as much as it shakes the timid Bernard. The other boys mock him for preferring teddy bears over cars and balls. Bernard wishes he could be as fierce as they are. But what does it mean to be fierce? This heartwarming story invites readers to reconsider traditional notions of masculinity, encouraging children to embrace their true selves with courage and confidence.

A new collection of comics with uppercase letters for very early readers to discover the world that surrounds them

Drile Crocodile is a collection of comics for first readers containing very recognisable situations for children aged 5-6, as well as for their fathers and mothers, who will be reflected in the stories of these 5 very peculiar characters.

On the playground there are many stories that go unnoticed if one does not look closely, and the same can be said for a meadow. To see these stories, you must be patient, and pay attention. Gómez has done exactly this with the 5 characters found in this very particular meadow: a crocodile, a raccoon, a worm, and two sheep.

The 5 animals experience situations very similar to those that usually take place in a nursery or primary school:

- Friendship and disputes
- Games and tricks
- Achievements and conflicts
- Talents and frustrations...

In each book, a specific topic is addressed from the point of view of one of the 5 characters and together, AND WITH A LOT OF LAUGHS, they find a solution.

But every investigation also puts the friends' emotions to the test. Worry, frustration, anger, fear, or impatience can easily get in the way of solving a mystery, and the members of P.A.T.I.O. soon discover that learning to understand and manage their feelings is just as important as following the clues.

With fast-paced stories, relatable school settings, and a cast of endearing characters, P.A.T.I.O. blends mystery and humour with social-emotional learning, offering young readers entertaining adventures while giving them practical tools to recognise and navigate their emotions.

Aaah! ¡Aaah!

Estaba dentro de un torbellino multicolor. Aquello era fascinante. No sé cuánto tiempo estuve girando como una peonza, solo recuerdo que de repente sentí un golpe en el culo y que estaba más mareada que el caballito de un tiovivo.

Miré alrededor; aunque todo me daba

vueltas, me di cuenta de que me encontraba en un curioso salón en miniatura: la mesa, las sillas, el sofá y la estantería eran enanos. Parecía una casita de muñecas.

—¡Qué pasada de sitio! —exclamé.

ZODIAKIDS SERIES

LEDICIA COSTAS &
GUILLE RANCEL

*What if your zodiac sign
hid a magical power?*

An action-packed middle-grade fantasy series in which each zodiac sign grants its bearer a unique magical power.

When ten-year-old Estela discovers that the snake-shaped birthmark on her arm has come to life, she learns that she is one of the Zodiakids—a group of children chosen to protect the stars from the evil King of Darkness. Each Zodiakid is bonded to a *zooiko*, a magical creature linked to their zodiac sign, whose powers are essential to their mission. But Estela belongs to Ophiuchus, the forgotten zodiac sign, and her unpredictable snake has a mind of its own.

As the Zodiakids face increasingly dangerous threats—from stopping celestial creatures from awakening to protecting the universe during extraordinary cosmic events—Estela must learn to trust her powers, work alongside her friends, and face challenges that test both her courage and her family ties.

Blending magic, adventure, humor, and astrology-inspired world-building, *Zodiakids* is a highly commercial fantasy series about friendship, teamwork, and discovering the extraordinary power hidden within ourselves, with each new adventure expanding its rich mythology and paving the way for future instalments.

Dicen que tiene la vista ultradesarrollada y que ve cosas que otros no vemos. Ariel es superinteligente. Siempre saca dieces en Matemáticas y ha ganado varias medallas de oro en las Olimpiadas escolares de judo. Tiene el pelo largo y muchas veces se lo enrosca a los dos lados de la cabeza, como la princesa Leia, que es un personaje de unas pelis que les gustan a mis padres. Los dos son famosísimos. De repente se han enterado de que existo. No tengo ni idea del motivo, yo no he hecho nada fuera de lo normal. ¿Será por mi sudadera nueva?

—Felicidades —me dice Ariel.

—Gra-gra-gra... —No consigo que me salgan las palabras.

¿Enseñarme algo a mí? ¿No será una trampa? Aunque ellos no parecen de esos niños que se meten con los demás. Santiago es un poco estirado, pero como todos los sagitario.

—Venga, animate —añade Ariel—. No te arrepentirás.

—Sí. Necesitamos desembarcar —contesté sin mirarla.
—¿En la isla? Imposible, eso solo pueden hacerlo los ferris. El resto de embarcaciones tenemos prohibido acercarnos más.

No me lo podía creer. Teníamos el objetivo muy cerca, pero parecía inalcanzable.

El tiempo jugaba en nuestra contra. Cada segundo allí parados, a la deriva, me exasperaba. Andy no entendía la gravedad de la situación, ni siquiera yo sabía lo que pasaría si no llegábamos a tiempo. Me imaginé que viviríamos una especie de Halloween perpetuo, pero sin caramelos y con monstruos de verdad. Más me valía conservar el traje de bailarina zombi, por si acaso...

Al final tomé una decisión: intentaría convencerlo una vez más. Si no lo conseguía, saltaría y nadaría. Si moría ahogada en el río Hudson o devorada por un tiburón, al menos habría tenido una valentía digna de una superhéroe. ¡Supéralo, Batman!

Me levanté, me acerqué a él con determinación y lo cogí del brazo.

—Sé que te estoy pidiendo demasiado —le dije casi susurrando—, pero es imprescindible que lleguemos hasta la isla. Te prometo que será una visita rápida y que no te pasará nada. Una pequeña aventura para contarles a tus hijos.

Inspired by the real-life scientific mission Hypatia Mars, led entirely by women, Mars Explorers imagines what life on the Red Planet could be like.

On Mars, a group of robots tirelessly collects data so scientists on Earth can learn as much as possible about this distant world. But when a meteorite crashes into the antenna that connects Earth and Mars, communication is suddenly lost. Restoring the signal is urgent if the research is to continue. To solve the problem, the space agency launches the astronaut mission *Hypatia II*. Ariadna, Mònica, Estel, Marina, Anna, Helena, and Jennifer are sent to repair the antenna and reestablish contact between the two planets.

The task, however, will not be easy. As they explore an unknown and hostile environment, the astronauts must face unexpected challenges on a planet full of dangers. Will they succeed?

An exciting adventure story starring the members of the real scientific mission *Hypatia Mars II*.

Like the mission that inspired it, this book aims to encourage girls to pursue careers in science, technology, engineering, and mathematics (STEM), fields in which women are still underrepresented.

EVERDEN CEMETERY 1: WALTER MALONE'S GRAVE

BEATRIZ OSÉS

Why will readers aged 10 and up love Everden Cemetery?

- A new middle-grade series filled with mystery, intrigue, horror, and humor by Beatriz Osés, the queen of children's horror.
- Richly detailed with black-and-white illustrations by Mónica Armiño.
- Beatriz Osés is a standout in children's literature. Author of the bestsellers Erik Vogler, Albert Zimmer, and Berta Vogler.
- Finalist for the National Children's and Youth Literature Award and winner of the Barco de Vapor Award in 2019 and 2021.

The most powerful stories are those that haven't been told yet.

Perhaps you've been told that a long, long time ago, in Prehistory, everything was dominated by men who hunted and fought. Maybe you've heard that these men were solely responsible for cave paintings, that they were the healers and the warriors. But perhaps that's not entirely true...

Because in Prehistory, there were also women, boys, and girls. Indeed, there were many! And they were also essential. These women were warriors, hunters, healers, gatherers, weavers... And the children were just that: children, loved and cared for.

This book will take you on a journey to discover these forgotten and silenced stories.

Because understanding our past is the key to empowering future generations.
